Playful Possibilities/ Flexible Learning	<p><b><u>Eco-Friendly and Sustainable Room Design:</u></b></p> <p>1) Read this <a href="#">article</a> and watch this <a href="#">video</a> about eco-friendly/sustainable rooms and house designs. Feel free to do more research of your own on these topics.</p> <p>2) If you were able to design your own eco-friendly/sustainable home/room, what would you include? Go to <a href="http://www.planyourroom.com/">http://www.planyourroom.com/</a> to design your dream room (you can do it on paper if you would like). It can be a bedroom, a games room, whatever you decide. However, it must be eco-friendly and sustainable.</p> <p>3) In teams, on our positivity channel, post a picture of your dream room/home. Underneath your picture, write a short paragraph explaining the eco-friendly features of your design.</p>
